Note Photoshop is copyright Adobe (2015), and the name has been trademarked. Adobe has also trademarked the Photoshop name for use in other programs sold by Adobe. ## What is Image Editing? Image editing, in general, refers to the act of transforming a raster image. The most common type of raster image is the digital photograph. But other types of raster images include scanned drawings and scanned designs. There are different types of editing that are possible for raster images depending on the image type. To create a simple raster image in Photoshop, you use the Rectangular Select Tool (R), and click and drag to draw an area to be selected. This tool enables you to select a particular portion of an image by clicking the mouse to set the starting point of the selection, and then dragging the mouse to set the ending point. By changing the starting and ending points of the selection, you can determine how much of the image is being selected. # EDITING WITH PHOTOSHOP The following topics cover the basic tools and tools you need to make basic image changes to your pictures: ## Creating a New File 1. ##With the Select, Rectangular Select, or Lasso tools, draw a shape around a specific image area that you want to crop. Then choose File > ##New. A New Document window opens. Make sure that you have set the current selection by clicking the tiny square outlined in the following figure##. Photoshop has a lot of powerful selection tools. The most commonly used tool for selecting areas of a single image is the Rectangular Select Tool (R). 2. ##Click OK to open your new document##. The new document automatically opens with a background of black so you can see where you are selecting. A warning appears on top of the image, telling you the image may not be saved. Click OK to continue. ## Cropping Images 1. ##Choose Edit > ##Crop. The Crop tool appears in the tools panel (Figure## \*\*1## \*\*) and looks very much like the Rectangular Select Tool (R)##. The C

Q: setTimeout with params returns a period instead of a string I have this setTimeout(function() { var foo = ('bar'); console.log(foo); }, 1000); I want this to return bar and instead returns a period. What's the proper way to pass this a string as a parameter? A: This is not how you setTimeout a callback. You can bind the parameters of your callback like this: setTimeout(function() { var foo = ('bar'); console.log(foo); }, 1000, 'bar'); Here we bind the second parameter to the string bar. More information on the 3rd (function) parameter here. Venturette Telephone Answering Service Creating a custom phone number with a name is the perfect way to tell the world who you are, what you do, and how to reach you. We Create Custom Numbers for You: Enterprise Numbers For businesses with multiple locations, enterprise numbers can easily reach all of the locations. Caller ID The number provides your name, phone number, company or phone type, so people who call your number will know who they are calling. Portable Number A portable number gives you a personal mobile phone number, which can be used anywhere. small local dishes, the Egyptian pizza (charbouquette) and the Syrian shawarma (kebab). Both are deliciously well cooked and, as well as being filled with meat, serve an array of different ingredients, some unexpected. In the northern Greek city of Volos, the tourist hotspot, however, only offers a regular salad bar, not the range of local dishes, and as a result, you may be left disappointed. That's not to say there's nothing to eat on your trip to Greece; in fact there are several national dishes worth experimenting with, and the most well-known of them are the Greek salad and the Greek calamari. A Greek salad is typically a combination of lettuce, cucumber, tomato,

Kelly, 858 F.2d 571, 575-76 (9th Cir.1988); Valdez-Gonzalez v. INS, 58 F.3d 1484, 1489-90 (10th Cir.1995); Radford v. INS, 264 F.2d 1, 5-6 (2d Cir.1959), cert. denied, 360 U.S. 935, 79 S.Ct. 1458, 3 L.Ed.2d 1546 (1959). 23 Although Urbina contends that the decision of the BIA was contrary to precedent, he has not explained how the case cited in his brief supports his argument. See Pinto-Marquez v. INS, 480 U.S. 548, 107 S.Ct. 1396, 94 L.Ed.2d 533 (1987). As the INS notes, Urbina was not found deportable under the provisions of the Act of June 25, 1948, ch. 646, 62 Stat. 771, the predecessor of § 241(a)(1)(B) of the Act. Rather, he was found deportable under § 241(a)(2)(A)(iii) of the Act, because he "is convicted of a crime involving moral turpitude committed within five years of the date of entry, and the sentence... was a term of imprisonment in excess of one year." 8 U.S.C. § 1251(a)(2)(A)(iii) (1988). 24 Urbina argues that the BIA's finding that his state conviction for riot constituted a "crime involving moral turpitude" is not a finding of law that is subject to Chevron deference, but rather a finding of fact that is reviewable only by the Court of Appeals for the First Circuit, following the rule in Sandoval-Mendoza v. INS, 438 F.2d 988 (9th Cir.1971), in which we held that the meaning of the term "aggravated felony" is a matter of law for our review. Id. at 989
